

CAREER OPPORTUNITY: SENIOR HYDROGEOLOGIST

1 COMPANY SUMMARY

Active Earth Engineering Ltd. is a dynamic engineering and environmental consulting firm that has completed over 3,000 projects across BC.

We specialize in hydrogeological engineering, environmental investigation and remediation, and geotechnical engineering. Our clients include government agencies (municipal, provincial, and federal), property owners, contractors, developers, realtors, architects, and other engineers and consultants. Our company was created in 2007 by a small group of like-minded engineers and geoscientists who sought to build a unique consulting firm. We provide top-tier services that are tailored to our clients' needs, at competitive prices.

Our team currently includes over 35 talented and passionate individuals, including hydrogeologists, engineers, project scientists, technicians and professional support staff. **We genuinely enjoy working together and love what we do, and have experienced virtually no staff turnover in the past 14 years.**

2 OUR HYDROGEOLOGY TEAM

Our team of talented hydrogeologists are experts in aquifer characterization, production well design and testing, environmental impact assessments, on-site sewage disposal, stormwater infiltration and drainage, construction dewatering, groundwater-surface water interaction, water licensing and approvals under the Water Sustainability Act (WSA), groundwater modeling, contaminant fate and transport, and related fields.

Our team is highly experienced and well-respected. We are truly collaborative, supportive, and passionate about groundwater!

3 CURRENT OPPORTUNITY

We are seeking a talented **Senior Hydrogeologist** to join and support our incredible hydrogeology team as we continue to grow.

This team member will provide technical support for a range of hydrogeological projects and clients. The ideal candidate will be capable of leading all aspects of these projects, with support from our team, and spearheading business development efforts for our hydrogeology division.

The successful candidate will:

- Hold a bachelor's or master's degree in geological engineering or geological sciences.
- Be registered as a P.Geol. or P.Eng. in BC.
- Have a minimum of 10 years of consulting, academic, and/or industry experience in hydrogeology in BC.
- Be able and willing to travel regularly to project sites throughout the Fraser Valley to meet with clients, assist with staff training, supervise/conduct fieldwork, etc.
- Be located within or near the Fraser Valley, in order to be based out of our Abbotsford office (preferred) or our Burnaby office.
- Ideally possess some working knowledge of small water supply systems, well design and testing, stormwater and wastewater management, hydrology and water treatment.
- Be proficient in standard desktop software (Word, Excel, Acrobat, etc.) and be comfortable with mobile apps and cloud-based software.
- Possess a demonstrated ability and aptitude to:
 - Prepare and/or review technical reports and proposals.
 - Work both collaboratively and independently, as warranted.
 - Complete project objectives within schedule and budget constraints.
 - Manage multiple tasks simultaneous and effectively.
 - Communicate clearly in English, both orally and in writing.
 - Direct subcontractors in a sound, safe, and respectful manner.
 - Mentor junior staff and contribute positively to the company culture.

4 PAY, BENEFITS & HOURS

We offer **very competitive salaries**, an **extended medical and dental benefits plan**, an industry-leading **profit-sharing program**, and an **energetic and truly collaborative working environment**.

This will be permanent fulltime salary position, with a minimum of three weeks paid annual vacation (to be negotiated), and five days of paid sick leave. Salary will be commensurate with experience and will be negotiated. We anticipate a salary of \$110,000 to \$150,000 per year.

5 APPLICATIONS

Interested applicants should submit a resume and cover letter to employment@activeearth.ca. Any questions may be directed to Mr. Matt Pye at matt.pye@activeearth.ca or 250-686-9850.
